# 4Mx2M V Deck Inflatable Pontoon

Designed with the shape of a 'V' cut from the traditional 4Mx2M Deck Extender, the Bartlett 4Mx2M V Deck Inflatable Pontoon allows you to easily park a watercraft quickly and easily in the centre of the 'V'. This pontoon design works best on a river or lake bank with a sharp drop off, keeping the watercraft closer to the bank and out of fast-flowing or choppy waters.

The Bartlett 4Mx2M V Deck Pontoon is perfect for loading and unloading from watercraft such as boats, jet skis or kayaks, so that the watercraft doesn't run aground risking damage, whilst also making it easy to embark or disembark. For use with water sports, the Bartlett 4Mx2M V Deck Pontoon can be used to launch wakeboards, kneeboards or dry-start off the ends.

Become the envy of everyone on the shore with the ultimate summer accessory, a Bartlett Inflatable Pontoon. These floating docks make an awesome swimming platform, extension of space while on a boat or the perfect spot to sit-back, relax and soak up the summer sun. Take it to the holiday home, float it off the beach, use it as a yoga platform or lash a few together to increase on-water real estate. The possible uses for Bartlett 4Mx2M V Deck Pontoons are endless at the local beach, lake, dam, or river.

Created with D-rings top and bottom, the Bartlett 4Mx2M V Deck Pontoon has tie-points thoughtfully placed in positions that allow them to connect to other Bartlett Inflatable Pontoons across the range. Locking together other components such as the Bartlett 8.5M Straight Pontoon allows endless possibilities for different shaped floating docks accommodating so many situations.

Made to last in Australian conditions, Bartlett Inflatable Pontoons are manufactured from commercial grade CE Certified Drop-Stitch Double Wall Fabric (DWF), designed to withstand a high amount of air pressure making them strong, rigid, and incredibly stable on the water. Most importantly, they are easy to deflate allowing to simply fit in a car or boat for transporting to and from the water.

LENGTH (MTRS)	WIDTH (MTRS)	THICKNESS (MTRS)	WEIGHT (KG)
4.0M	2.0M	0.2M	28KG

# 4Mx2M Deck Extender Inflatable Pontoon

Designed to slide under the duck board of most cruisers, the Bartlett 4Mx2M Deck Extender Pontoon becomes a solid and stable platform to increase deck space on a boat. Created with 6 heavy duty D-rings top and bottom of the platform, allowing for anchoring and parking of jet skis or other water toys whilst on the water.

Built for loading and unloading from watercraft such as boats, jet skis, kayaks the Bartlett 4Mx2M Deck Extender Pontoon can be tied off on a bank or anchored alone, reducing risk of watercraft running aground and getting damaged. When used as a boat dock, the Bartlett 4Mx2M Deck Extender Pontoon makes it easy to embark or disembark the watercraft. For use with water sports, the Bartlett 4Mx2M Deck Extender Pontoon can also be used to launch wakeboards, kneeboards or dry-start off the end.

Become the envy of everyone on the shore with the ultimate summer accessory, a Bartlett Inflatable Pontoon. These floating docks make an awesome swimming platform, extension of space while on a boat or the perfect spot to sit-back, relax and soak up the summer sun.
